

SUGGESTED LETTER OF TRANSMITTAL

County Letterhead

Name of the Person
Address

Dear _____ :

Attached is your authorization to reproduce in facsimile the California Nursery Stock Certificate authorized by the 1968 Legislature. This certificate is to accompany both intrastate and interstate shipments of nursery stock.

A facsimile of the certificate may be reproduced by you on invoices, postal meter devices, and shipping labels. This reproduction is subject to my approval. The nursery inspection regulation requires the certificate, which will accompany shipments of nursery stock, to be reproduced in essentially the form as indicated on the attached authorization. Although there is no size or color requirement, such certificate shall be reproduced in a legible and conspicuous manner.

The blue shipping permit marked "Hold for Inspection", is to be used for a shipment not eligible for movement under the nursery stock certificate. The attached Shipping Guide outlines certain restrictions on the use of the nursery stock certificate.

If you have questions, please let us know. My staff will be glad to discuss requirements with you and review the manner in which you plan to reproduce the certificate.

Sincerely,

County Agricultural Commissioner
